Parents and Staff,

Littlefield ISD Administration has been notified that one student from Primary School tested positive for COVID-19 during the week of November 2 - 6. The student is currently self-quarantining at home.

Based on the information that we have gathered, it has been determined that the end of the 14-day incubation period for anyone possibly exposed to this student is November 16.

LISD is continuing to deeply sanitize, and all District employees and students are instructed to continue to follow CDC guidelines and recommendations and to practice social distancing. Therefore, we feel that it is safe for students who are not specifically quarantined to continue to attend school in person.

Out of an abundance of caution, we advise you to monitor your health, follow the [CDC guidelines for people who have had close contact](#) and contact your primary care physician if you develop symptoms.

Littlefield ISD is continuing to monitor situations related to COVID-19 and will provide additional information as needed. We hope for a successful recovery for anyone infected with the COVID virus.

Sincerely,

Robert Dillard

Robert Dillard
Superintendent of Schools
